

SUPER ABSORBABLE

Powerful bone builder

Not all calcium magnesium formulas are equal. INNO-CAL-MAG® Complexes are small but powerful.

Every ingredient in our synergistic formulas create a cascading and exponential absorption effect.

We start with multiple forms of calcium to provide a broad spectrum of higher absorption potential.

Super-charged cofactors like Vitamin D3 and anti-foaming Vitamin K2 are added to enhance calcium absorption.

Topped off with an exclusive omega-6 liquid suspension to enhance Vitamin D and K absorption potential.

What does all of this mean? Higher potencies in small, easy-to-swallow soft-gels. Your ultimate potency punch!

Choose the INNO-CAL-MAG® Complex formula that best suits your individual needs.

Smaller. More powerful. Less is more. Formulas are non-GMO, Gluten/Dairy/Soy-free.

STRETCH YOUR FLEXIBILITY AND BUILD BONE STRENGTH

Our bodies are constantly building up our bones in a process called “remodelling”. This goes on throughout our lifespan. However, when you hit age 30, your bone mineral density would typically have reached its peak. From then on, the remodelling goes on, but you’ll be losing more bone mass than you’re gaining. This is why it’s important to achieve your peak bone mass when you can (typically before age 30). However, if your body lacks important nutrients (calcium) needed to fortify your bone tissues, you disrupt the entire bone building process. By not having enough calcium, you risk not ever reaching the peak of your bone mass. The good news is, you can avoid all that by starting to take good care of your bones now. Making sure you have enough calcium in your diet helps your bone mineral density hit its peak. While calcium is crucial, taking it alone may not be enough. To actually get calcium into your bones, the body relies on other vitamins and minerals. INNO-CAL-MAG® Complexes offer the most bioavailable form of calcium and the necessary co-factors in the correctly balanced ratios to help promote bone health.

Fracture Risks & Facts

- Both women and men begin to lose bone in their mid-30s; osteoporosis has no symptoms until a fracture occurs
- 1 in 3 Canadian women will experience an osteoporotic fracture in their lifetime
- 1 in 5 Canadian men will experience an osteoporotic fracture in their lifetime

Benefits of INNO-CAL-MAG® Complexes

- Promotes healthy bones and the prevention of osteoporosis
- Helps in tissue and connective tissue formation
- Highly absorbable and easier to digest

PRODUCT OVERVIEW

	INNO-CAL-MAG® w/Boron	INNO-CAL-MAG® w/xtra Vitamin D3	INNO-CAL-MAG® w/Vitamin K2
Calcium	250 mg	250 mg	250 mg
Magnesium	125 mg	125 mg	125 mg
Phosphorus	62.5 mg	62.5 mg	62.5 mg
Zinc	1.25 mg	1.25 mg	1.25 mg
Vitamin C	15 mg	15 mg	15 mg
Boron	0.75 mg	0.75 mg	0.75 mg
