INGREDIENTS	WHAT IS IT?	WHAT DOES IT DO?
Water	deionized/demineralized water that has passed through filters to remove minerals	holds all ingredients together in solution
Cocamidopropyl Hydroxysultaine	very mild surfactant (surface active agent)	foams and cleanses without stripping away natural oils from skin
Sodium Methyl 2-Sulfolaurate	readily biodegradable surfactant with viscosity modifying characteristics from coconut	provides foaming and cleaning power
Glycerin	corn-derived humectant	attracts moisture and softens skin
Lavandula Angustifolia (Lavender) Oil	natural essential oil	provides fragrance
Citrus Aurantium Dulcis (Orange) Peel Oil	natural essential oil	provides fragrance and cleaning efficacy
Fragrance	mixture of natural, high-quality essential oils and safe synthetic fragrance ingredients	smells great and provides an aromatherapeutic experience
Disodium 2-Sulfolaurate	readily biodegradable surfactant from coconut	provides foaming and cleaning power
Olea Europaea (Olive) Fruit Oil	natural plant oil pressed from olive	provides Vitamin E, moisturization and softening
Aloe Barbadensis Leaf Juice	natural plant extract from aloe vera	helps to soothe and protect skin
Citric Acid	natural fruit acid	modifies the pH of the formula for optimum cleaning and stability
Sodium Chloride	mineral salt	adjusts thickness and flow of product
Polysorbate 20	Emulsifier that make oils compatible with water	ensures even dispersion and stability of fragrance
Potassium Sorbate	non-formaldehyde preservative	safe and effective food grade product preservative, <1% of total volume
Sodium Benzoate	non-formaldehyde preservative	safe and effective food grade product preservative, <1% of total volume
