The richness of Le Grand's organic cultured cheese yields a buttery texture that combines delicate and humble ingredients to create the most perfect mouthfeel. Remarkably balanced flavour that will quickly become a daily staple.

Our cheese has the best texture, perfect thickness and spreads easily right out of the fridge. We never use oil in our cheeses because we don't want to. We don't want the extra fat, the high calories or the heaviness. We only use all organic premium whole cashews, organic legumes, vegetables, seeds and spices.

Whether it's a lazy Sunday brunch or a quick power lunch, LeGrand spreadable cheese can pimp up your bagel, your avocado toast or your homemade vinaigrette. Try spreading it on a warm baguette and then adding your favorite toppings.
