

## ABOUT US

Nova Scotia Fisherman doesn't end with great ingredients, what makes this product especially unique are the values and integrity of the team who works with it. We are a family and friend run company in the heart of the Annapolis Valley.

Not only is it important for Nova Scotia Fisherman owners, Les and Uncle Perly, to create a quality product but they are also on a mission to enhance where they live by providing quality employment in rural Nova Scotia. They continue to measure their success based on how they are contributing to their rural community and the people in it.

They are proud to produce products that are healthier for their families, homes and environment.

Inspired by their community, environment and the people they serve, Les and Uncle Perly have worked hard to produce a quality all natural line that doesn't compromise on people or the environment.

# NOVA SCOTIA FISHERMAN<sup>®</sup>

X TREME SKIN CARE™

WITH POWERFUL  
NOVA SCOTIA

**SEA KELP**

NEW WAVE THERAPY!™

## ORGANIC KELP – GREAT INSIDE AND OUT

Kelp is essentially seaweed that thrives on sunlight and nutrients from its surroundings. The ocean is home to the best filtering systems on earth facilitating in the breakdown of chemicals, toxins, and heavy metals. Kelp is one of these amazing detoxifiers. Nova Scotia Fisherman uses the Fucus Vesiculosus variety from the pristine shores of Nova Scotia. It is certified organic, kosher and sustainably harvested.

Kelp is a natural source of iodine and is considered safer and better for your body than chemical synthetics. Iodine is a powerful antioxidant which can prevent or slow cell damage. It is also high in Vitamins A and E which can keep skin looking younger and firmer. It also contains minerals like calcium, fluorine and magnesium that contribute to a more radiant skin tone. Compounds found in kelp also can have an effect in the treatment of acne breakouts.

Kelp helps prevent early loss of elasticity of the skin. It also contains important ingredients which can help regulate your oil production on your skin, remove bacteria and reduce redness with the help of its anti-inflammatory properties.

Nova Scotia has a long maritime tradition that goes back almost two centuries. Our sea hardy ancestors earned their livelihood, found nourishment and lived by the tides. At Nova Scotia Fisherman we have developed an Xtreme Skin Care line that cares for your skin whether you are a fisherman, deckhand or simply a skin enthusiast.

## KELP REPORTED BENEFITS:

- restores moisture levels
- revitalizes and firms skin
- oxygenates and detoxifies
- conditioner that improves skin texture and tone
- protects from environmental elements
- contains antioxidants and beta-carotene
- stimulates the skin's ability to heal

- ~ NO PARABENS
- ~ NO PETROCHEMICALS
- ~ NO SYNTHETICS
- ~ NO ANIMAL TESTING
- ~ NO SLS

## PARTNERING WITH NATURE CONSERVANCY OF CANADA

As Nova Scotians we value our landscape and the place we call home. We believe that it is our responsibility to support our local communities and help protect the land that has shaped us while ensuring it's sustainability for future generations. Since 1971 the Nature Conservancy of Canada has worked to protect our province's natural treasures. Nova Scotia Fisherman is proud to support their efforts with a portion of each sale.

## NOVA SCOTIA

A province of rolling hills, flowing rivers, and sharp cliffs is often compared to Scotland which is no surprise since its name in Latin is New Scotland. Pioneered by fisherman, farmers and sailors, Nova Scotia has a history of amazing craftsmen such as Smith and Rhuland shipbuilders of the famous Bluenose to artists such as Alex Coville.

**Nova Scotia Fisherman™** manufactures in the beautiful Annapolis Valley the land of Orchard, Vineyards and Tides. Our ocean tides are on record as the highest tides in the world. The Valley is also home to the poem "Evangeline" by Henry Wadsworth Longfellow, a heart wrenching tale of Acadian love torn apart by war.
