

Virafect

Effective Relief for Viral Infections

With all the concerns about viral infections that are going around this winter **St. Francis Herb Farm** has you covered with **Virafect**. This specially formulated viral fighter is to be used at the first sign of symptoms and provides potent and powerful plant medicine to:

- Help to **relieve viral infections** and the associated symptoms including **sore throat and fever**
- Shorten the duration of **upper respiratory tract infections**

Andrographis is the king herb in this formula with a long history of medicinal use in the Far East, where it is valued highly as one of the foremost **immune-stimulants** and infection fighters. In addition, there are four other expertly chosen herbs that complement and escalate its **antimicrobial** benefits, while adding an **anti-inflammatory** effect.

Made in Ontario using certified organic and wildcrafted herbs.

Special Note: When recommending **Virafect**, it's best to tell consumers to take with juice or dilute in water as is a very strong and bitter tasting combo. Bitter is best, but also hard to taste for some.

| UPC | Code | Product Description |
|--------------|------|---------------------|
| 813858009695 | 0969 | Virafect 50mL |
| 813858009701 | 0970 | Virafect 100mL |
