MOZAICS™

Where We've Been

- Since launching in 2018, Mozaics has been in the same shelf package displaying multiple messages and attributes focus.
- 2020 proved challenging, but we learned a lot from our core consumers who purchased online directly, and we listened...

Where we're going:

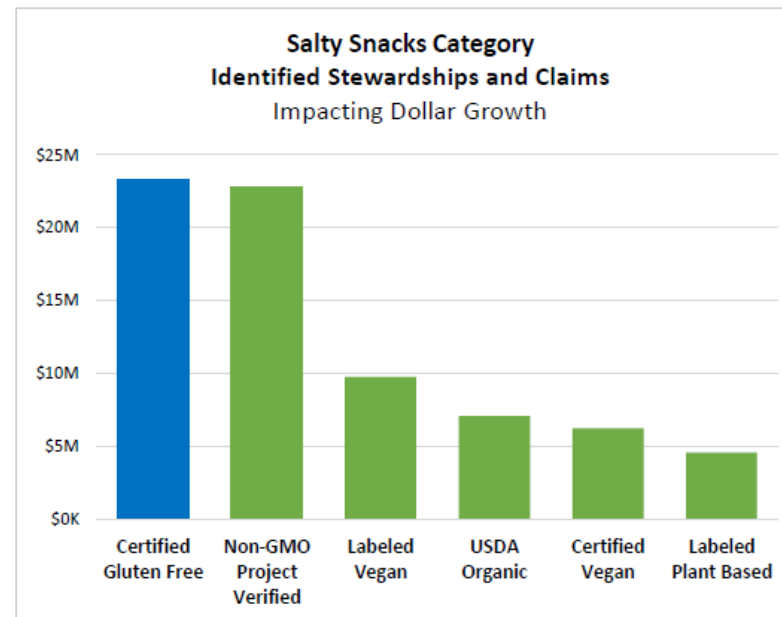

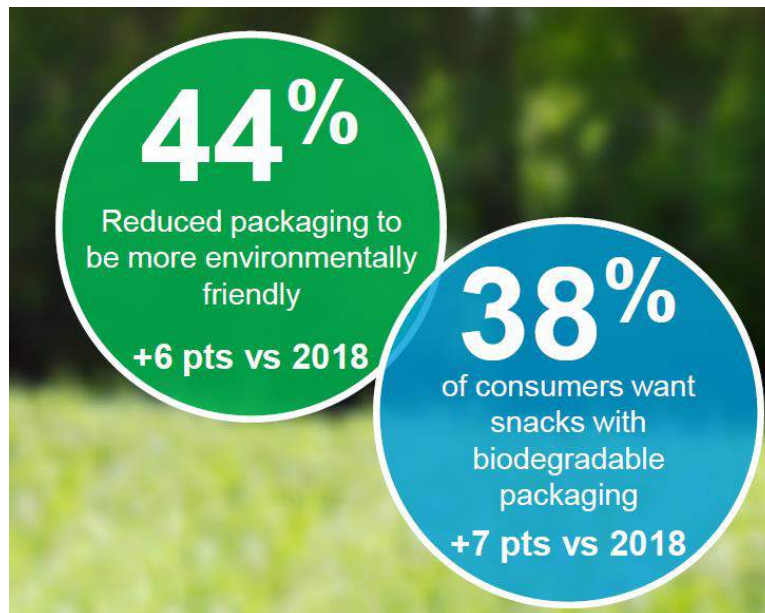

- Our customers told us what mattered – that we were a chip loaded with vegetables - our first ingredients are peas and vegetables.
- We talked directly with people who love Mozaics, with influencers, snack box customers, and natural food enthusiasts.
- We changed our message on our website to **"NOW THAT'S A REAL VEGGIE CHIP."**
- We are also changing from USDA Organic to **Non-GMO Verified** and reducing the SRP by \$1.00 per unit to supercharge growth!

MOZAICS™

MOZAICS™

MADE WITH

NEO  plastics™

plastic to energy

- The new packaging is made with NEO Plastics proprietary organic additive/enzyme, which transforms traditional plastic packaging into a sustainable solution made for disposal in landfills.
- Once NEO packaging is deposited in a landfill, NEO's enzyme accelerates the natural microbial digestion of the package. During this process, biogases are released, to be collected and turned into clean, renewable energy. Currently, more than 600 managed waste facilities, representing 80% of today's waste, turning into clean energy.
- New degradable film packaging ships October 2021

MOZAICS™

- Plant-based protein in a TRUE veggie chip that eats like a potato chip!

*You can see it
in every chip!*

40%+ of each chip = REAL PEAS & BEANS

Real peas & beans = REAL NUTRITION
